

Assignment 3 - Pathfinder

Before we start the Brand Identity project, you will learn a very helpful tool called the Pathfinder.

The pathfinder allows you to make more unique shapes using cut outs and combining shapes without having to draw everything out with the pen tool.

We're going to start out simple and create this key....

1. Go to [This Tutorial](#)
2. Create a new document in Illustrator, name it "LastName_Pathfinder"
3. Complete Key Tutorial

This tool will be very helpful when creating more complex shapes in Illustrator especially **LOGOS**.

***** UPDATE FOR ADOBE CC:

Similar to the Pathfinder, check out the Illustrator "SHAPER TOOL"

Watch this tutorial & Try it out
